Arpita Biswas and Subarna Chatterjee, alumni of IEM, Salt Lake received a postdoctoral fellowship at Harvard University.

The screenshot shows the website for the Center for Research on Computation and Society (CRCs) at Harvard University. The header includes the Harvard University logo and the URL HARVARD.EDU. The main content area features the CRCs logo, which consists of a shield with a cross and the letters 'V E I O I A S', and a stylized icon of a group of people. The text reads 'CRCs Center for Research on Computation and Society at Harvard School of Engineering and Applied Sciences'. A navigation menu includes links for Home, Calendar, People, Research, Publications, News, Events, and Apply. Below the navigation is a search bar and a section titled 'Postdoctoral Fellows'. Under this section, there is a profile for Arpita Biswas, a CRCs Postdoctoral Fellow. Her bio states: 'My primary areas of interests include Algorithmic Game Theory, Optimization, and Machine Learning--in particular, multi-agent learning, incentive...'. There are links for 'Read more', 'Homepage', and 'arpita.biswas@live.in'. On the right side of the page, there is a 'Follow us on:' section with icons for YouTube and Twitter. At the bottom, a paragraph states: 'CRCs is composed of members of the Harvard Faculty, Staff, Postdoctoral Fellows, and Student Researchers. It is led by an Executive Committee.'

INSTITUTE OF ENGINEERING & MANAGEMENT KOLKATA

Prof. Dr. Satyajit Chakrabarti, Founder Director of IEM Group, with his vast experience in industry and academia in different parts of the world, was the pioneer in introducing private engineering institutions in the state. Being an **IIT alumni**, he brought in the culture and discipline of IIT into IEM.

IEM is a NAAC 'A' category Institute. The Best Private Engineering College in West Bengal.

A BRIEF OVERVIEW

Institute of Engineering & Management (IEM) - the first self-financed engineering college of West Bengal.

Foundation of the Institute was laid in the year **1989**.

Prof. A. K. De (former Director, IIT Bombay) was the Principal of IEM till 1997.

Prof. K. L. Chopra, (former Director, IIT Kharagpur) as **Governing Body member** ensured that standard of teaching and training is at par with that of the best Engineering & Management Colleges in the country.

Moto of the institution : श्रद्धावान लभते ज्ञानम्

Objectives and goals of the Institute

- To provide excellent educational facilities, optimal atmosphere and maintain high academic standards.
- To develop the holistic personality of the students.
- To inculcate in them self-confidence and self-reliance for higher education by organising short intensive courses, industry visit, conferences and seminars on current scientific and technological developments.
- To organize extracurricular activities and to motivate students to participate actively in order to bring out the inherent and latent talents and skills in them.
- Prepare students to face various national level competitive examinations.
- To contribute to the industrial development and economic growth of the country by preparing a cadre of technicians well-equipped to look after administrative and R & D work in various engineering and management sectors.

TIMES ENGINEERING
BEST ENGINEERING INSTITUTES OF WEST BENGAL

The objective of the research behind the rankings was to arrive at a list of top engineering colleges offering full-time courses, including four-year courses in India. Post collection of data, a methodical analysis was done to rate the various engineering institutes that participated in the study and rank them accordingly. Here's what we found to be among the best engineering institutions after the research and analysis.

The research methodology

The research methodology involved a multi-step process. It started with identifying all engineering institutes in West Bengal. A team of researchers then visited these institutes to collect data on various parameters such as infrastructure, faculty, student-teacher ratio, and placement records. The data was then analyzed using a weighted scoring system to determine the final rankings.

A positive approach to online education

Amid the COVID-19 pandemic, the Institute of Engineering & Management (IEM) has achieved extraordinary success by being ranked the second best engineering institute of eastern India 2020 by The Times Group.

The institute has decided to fight back with positivity by continuing academic curriculum as per schedule in virtual mode. After successfully conducting a three-hour online subjective theory exam of 100 marks, online theory and lab classes have also resumed along with regular assignments and quizzes to track academic improvement of students from August 3, 2020.

Online placement classes, seminars in latest industry technologies, certification courses, hackathons, mentoring sessions, corporate lecture series, foreign lecture series, internships, placements and admissions are also being conducted in the IEM-UEM Group.

Taking strides ahead amid the pandemic

UEM Kolkata has secured the sixth rank in eastern India in the Times Top Engineering Institute rankings 2020 by Times Group and obtained Asia's Best Private Technical University Award 2019 by International Brand Consulting Corp, USA.

The students of the university have performed outstandingly in GATE-2020 exam. UEMK has signed MOUs with various eminent foreign universities including Harvard School of Management. It is also a partner institution in the prestigious European Union sponsored project FRACTION.

During the COVID-19 pandemic UEMK has taken exemplary transformational leadership to reform education digitally and wrapped up the academic session much before any other institute in the country.

Leading through constant innovations

The 'Make in India' concept initiated by Prime Minister Narendra Modi has been well adopted by the University of Engineering and Management (UEM), Jaipur, where the engineering students not only learn but also explore.

With their initiatives for innovation and skills, the students have successfully converted a petrol car into an electric car, devised women's safety shoes, a prosthetic hand and a 3D printer, just to name a few.

They have secured a good placement record for this year, where the highest salary offered is said to be ₹72 lakh per annum.

UEM Jaipur has been ranked first in Jaipur; second in Rajasthan, tenth in north India and 45th nationally by the prestigious Times Engineering Institute Ranking Survey 2020.
