Objective of the FDP

The FDP on leveraging AI for Cyber Security aims to give participants a thorough grasp of how AI may improve Cybersecurity, as well as practical AI tools and approaches for managing cyber threats.

Cybersecurity Centre of Excellence, UEM Kolkata

The objective of the centre is to catalyse and accelerate the growth of technology, entrepreneurship, and cyber security awareness in the nation by advancing the status of cyber security via research and innovation. The mission of the centre is to contribute to meeting the nation's cyber security defence research and education needs.
