

Peer Group Learning Support and Remedial Support Policy Date: 23rd June, 2022

1. Introduction

This policy outlines the framework for peer group learning support and remedial support systems at Institute of Engineering & Management, Kolkata. The primary aim is to foster a collaborative learning environment, enhance academic performance, and provide necessary support to students facing academic challenges.

2. Peer Group Learning Support

- **Formation of Peer Groups:** Students can form peer groups based on common interests, courses, or academic levels.
- **Peer Tutoring:** Students can assist each other in understanding course material, solving problems, and preparing for exams.
- **Group Study:** Students can collaborate on assignments, projects, and research work.
- **Peer Feedback:** Students can provide constructive feedback on each other's work to improve learning outcomes.
- **Peer Mentoring:** Senior students can mentor junior students, providing guidance and support.

3. Remedial Support

- **Identification of Students:** Students facing academic difficulties will be identified through regular assessments, faculty feedback, and self-reporting.
- **Remedial Classes:** The institute will offer remedial classes in core subjects to address specific learning gaps.
- **Individualized Support:** Students requiring additional support will be provided with one-on-one tutoring or counseling.
- **Learning Resources:** The institute will provide access to additional learning resources, such as textbooks, online materials, and study guides.

4. Roles and Responsibilities

- **Students:** Actively participate in peer groups, seek support when needed, and contribute to the learning environment.
- **Faculty:** Encourage peer learning, identify students requiring remedial support, and facilitate access to resources.
- **Administration:** Provide necessary infrastructure and support for peer learning and remedial programs.

5. Evaluation and Improvement

The effectiveness of the peer group learning and remedial support programs will be evaluated regularly through student feedback, academic performance data, and faculty observations. Necessary adjustments will be made to enhance the programs.

6. Support Systems

The institute will provide necessary infrastructure, such as study rooms, computer labs, and online platforms, to support peer learning and remedial activities.

By implementing these guidelines, Institute of Engineering & Management aims to create a supportive learning environment where students can excel academically and achieve their full potential.
